ABHISHEK PATEL

Project Manager | Agile Software Delivery | Stakeholder & Risk Management

New Delhi, India | +91-8081845411 | abhishekpatel.official4@gmail.com | linkedin.com/in/abhishek-patel-989023229

PROFESSIONAL SUMMARY

Project Manager with 3+ years of experience delivering software and ERP products for multiple universities, from kickoff through UAT and go-live. Plans sprints and timelines, manages risks, dependencies and change requests, and keeps clients, vendors, product owners, QA and engineering aligned. Tracks Velocity, Burndown, Lead Time and Cycle Time in Jira to keep delivery predictable. Certified Scrum Product Owner (CSPO) with SQL, Power BI and Advanced Excel for reporting, and uses AI tools (Claude, Userdoc, Confluence AI) to speed up documentation with manual review.

CORE SKILLS

Project Management: Project Planning, Timelines & Milestones, Scope Management, Resource & Capacity Planning, Dependency Management, Risk & Issue Management, Change Request Management, Delivery Management, Project Coordination, Cost-Benefit Analysis, Vendor & Solution Evaluation
Agile & Delivery: Agile, Scrum, Kanban, SDLC, Sprint Planning, Daily Stand-ups, Demos & Reviews, Retrospectives, Backlog Refinement, UAT Coordination, Release Readiness, Cross-Functional Team Leadership
Reporting & Governance: Status Reports, Project Dashboards, KPI Tracking, Velocity, Burndown, Lead Time, Cycle Time, Stakeholder Management, Client Communication, Escalation Management, Documentation (BRD, FRD, SRS, User Stories)
Tools: Jira, Confluence, ClickUp, Miro, Slack, GitLab, Zoho, Mural, Figma, MS Visio, Draw.io | SQL, Power BI, Advanced Excel
AI Skills: Claude, ChatGPT, Userdoc, Confluence AI, Notion AI, Jira AI (AI-assisted documentation, backlog and sprint insights)

PROFESSIONAL EXPERIENCE

Samarth eGov **Jun 2023 – Present**

Assistant Manager – Project & Delivery Management *Aug 2025 – Present*

- Manage delivery for a portfolio of 9+ ERP modules across multiple universities, running Sprint Planning, Backlog Refinement and solution validation with product and engineering teams, cutting manual operational effort by 45%.
- Track Sprint Velocity, Burndown, Lead Time and Cycle Time in Jira to catch bottlenecks early; assess dependencies, effort and delivery risks, and plan mitigation to keep releases on schedule.
- Act as the bridge between business stakeholders, product owners and vendors; helped shortlist tools and configurations that fit budget and scale during solution evaluation.
- Documented 50+ business requirements (BRD, FRD, PRD, SRS, user stories) in Confluence and Miro with a traceability matrix that cut development rework by 30%; use AI tools for first drafts with full manual review before sign-off.

Project Coordinator *Jan 2025 – Aug 2025*

- Coordinated end-to-end delivery of 9 digital university modules from kickoff to go-live, owning requirements, sprint execution, client interaction and cross-functional handoffs.
- Ran Scrum ceremonies and streamlined Jira workflows, cutting ticket resolution time by 20%; managed UAT, functional testing and change impact analysis as primary liaison between clients, QA and engineering.

Project Analyst *Jun 2023 – Dec 2024*

- Led requirement workshops, feasibility reviews and data validation to scope academic ERP projects; built process flows and wireframes in Miro to align engineering and non-technical stakeholders.
- Partnered with Development and QA through sprint execution, UAT and defect resolution, folding stakeholder feedback into requirements to cut change requests and rework.

Airtel – Data Analyst Intern **Jul 2022 – Sep 2022**

- Cleaned and validated 50,000+ records with SQL and advanced Excel at 99% accuracy; built Power BI KPI dashboards that cut report generation time by 30%.
- Found operational bottlenecks through statistical analysis that fed a 15% efficiency gain in admission-related processes.

KEY PROJECTS

- **Digital Admission Management Platform:** requirements, workflow design, sprint coordination and UAT for a multi-university ERP admission platform.
- **Academic Template Automation & Result Handler:** rule-based workflows for Grade Cards, Admit Cards and Marksheets, plus validation and exception handling for bulk result processing, removing manual effort.
- **Detention Rule Configuration Engine:** gap and impact analysis of attendance, credit and eligibility rules across university ERP systems.

CERTIFICATIONS & AWARDS

- **Certified Scrum Product Owner (CSPO)** | Agile Product Owner Role: Foundations and Techniques | Business Analysis Foundations | Power BI Essential Training | Excel: Advanced Formulas and Functions
- **Awards:** Client Appreciation for quality of work and stakeholder coordination; Best Team Award for cross-functional collaboration

EDUCATION

MBA – Babu Banarasi Das University, Lucknow 2021 – 2023
BBA – Axis Colleges of Higher Education, Kanpur 2017 – 2020
Intermediate (2017) and High School (2015) – St. Jude's College, Unnao
